TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES5/ES6), Kotlin, Java, Python, HTML5, CSS3
Frameworks	React 19, Next.js, React Native, Node.js, Nest.js, Spring Boot, FastAPI, Vue.js
API & Data	GraphQL, RESTful APIs, Redux, Zustand, PostgreSQL, Supabase
Auth	Supabase Auth, JWT, RBAC, Custom Claims
CI/CD & Infra	GitHub Actions, Docker, Flyway, Cloudflare Workers, Render, AWS (fundamentals), Git
Tools	Cypress (E2E), Figma, shadcn/ui, Radix UI, Zod, Drools, Flowable BPMN

PROFESSIONAL EXPERIENCE

Frontier Commons | Software Engineer

Apr 2026 – Present

- Building **Frontier Connect**, a full-stack faith-based trust & referral platform enabling ministries to coordinate verified introductions so people relocating stay connected to healthy faith communities.
- Architected with **Next.js, React, TypeScript, Spring Boot (Kotlin), PostgreSQL, Supabase**; implemented **Supabase Auth, JWT custom claims, RBAC**, admin/ministry portals, onboarding workflows, and email notifications.
- Owned end-to-end **CI/CD pipeline** with **GitHub Actions & Docker**; automated deployments to Render; managed database migrations with **Flyway** and delivered full UAT infrastructure.

Sunnyvale International Church | Ministry Admin & Web Developer (Volunteer)

Jun 2026 – Present

- Leading full **WordPress website rebuild** (Astra + Elementor + custom HTML/CSS/JS) — architecting design system, scroll-triggered animations, and a staging environment, maintaining church website, app, and CHmeetings platform.
- Design and produce church-wide announcement graphics, promotional flyers, and email newsletters for weekly ministry operations and events.
- Attend pastoral meetings to discuss church affairs, coordinate cross-departmental communications between ministry leads, and contribute ideas for church management and ministry initiatives.

Adroitts | Software Engineer

Aug 2023 – Apr 2026

- Architected 3 production-grade apps (sports marketplace & compliance platforms) using **React.js / React Native** with **Spring Boot** and **FastAPI** backends; improved feature delivery timelines ~15–20% through modular architecture.
- Optimized frontend via **Redux, Zustand**, code-splitting, and 20+ reusable **shadcn/ui** components — reducing page load by ~20–25% and UI defects by ~15–20%; tested mobile workflows across iOS/Android and varying screen sizes.
- Built POC configurable decision engine using **Drools** with **Flowable BPMN** orchestration; led sprint demos for 5-engineer team at ~85–90% sprint reliability.

IT Solution Center, Univ. of Cincinnati | Software Developer

Jan 2022 – Apr 2023

- Built virtual event platform with **React.js** and **GraphQL** for 200+ participants with video streaming and live judging; implemented E2E testing with **Cypress**, reducing regression defects.

JMAN Group | Software Engineer

Dec 2020 – Dec 2021

- Developed education management platform using **Laravel, Vue.js, PostgreSQL**; built HR system with **AngularJS & Node.js** for 100+ employees, automating timesheets and reviews — cutting manual effort by ~30–40%.

PROJECTS

DeepThinkStrategy (Consulting Firm Web Platform) — Built and deployed a client-facing marketing platform using React, Tailwind CSS, and shadcn/ui; Supabase for backend; deployed via Cloudflare Workers. deepthinkstrategy.com/

Configurable Rule Engine with BPMN Workflow Integration — Full-stack engine using Spring Boot & React.js; integrated Drools with Flowable BPMN for dynamic decision-making; built drag-and-drop BPMN designer using React Flow with live runtime rule updates.

EDUCATION

M.S. Information Technology — University of Cincinnati

Apr 2023

B.E. Electrical & Electronics Engineering — Anna University

Sep 2020

CERTIFICATIONS

Microsoft Azure AI Fundamentals (AI-900)

May 2024

Microsoft Azure Data Fundamentals (DP-900)

Dec 2022
